Saturday Technical Session ARV Computer Club

Session 11: Basic Digital Edits PC
Level: General Users

Presenter: Brian McLauchlan

What is the session about this week?
This will be about how images can be improved by editing.

- What are the basic changes that can be made
- What software can be used
- What is the difference between basic editors and advanced
- What about organising images

These sessions are plain speaking about technology so you get a good understanding. An Experienced User is one with more confidence and experience with using technology on different devices. Discussion will be about how to use the cloud and will assume understanding of internet services, but all are welcome.

Where: The Gatehouse

Time: 1000 am

Date: Saturday 6th December 2025
